## WE'RE FOR AMERICA & AMERICANS!

EVEN THE COURIER-JOURNAL finds something to command in the message of Governor BRADLEY; and that's a great deal.

In China an army recruit must be able to jump across a ditch six feet wide, or he is not eligible for enlistment. This accounts for the failure of our Japanese friends in capturing the whole pigtail outfit.

HON. SAM. J. PUGH has presented in Congress a bill to permit cities of 100,000 or more inhabitants to obtain postage stamps of special designs. His bill provides that any number of inhabitants of any city of the United States containing a population of 100,000 or more, as shown by the United States census of 1890, or as shown by any future United States census, as may desire, may unite in petition for the issuance of postage stamps of special designs commemorating the history of said city or the memory of inhabitants thereof now deceased; but no such special postage stamp shall be designed, made or used to advertise the business of any individual, firm, corporation or society.

THE reason why GROVER and JOHN are compelled to borrow money is set forth in this little table:

	Exports	Imports	Exports
1895	\$9,262,318	\$28,117,675	\$73,144,610
1894	10,821,375	20,621,024	\$1,20,381
Total	\$30,083,713	\$48,738,691	\$74,343,602

During these two years of a Democratic Administration the excess of gold exports over gold imports at New York was \$154,344,952. This was only \$3,000,000 less than the entire amount of the National bond issues under this Administration. We must borrow money to pay for the extra foreign goods that we buy, just as soon as the policy of Protection to the United States is abolished, or even threatened.

UNDER the caption "Investigate" the Democratic New York World has this to say:

"The Senate should investigate." President CLEVELAND and his friends say that Bunker MORGAN and his friends will ultimately get the Government privilege of supplying \$100,000,000 in gold to the Treasury. Now, the friends of Mr. CLEVELAND are the friends of Mr. MORGAN, and those of the banker are also those of the President. Mr. CLEVELAND's friends say, indeed they seem to hope, more they seem to truth in plan, so that the public loan may be a failure. If it shall fail MORGAN and his friends will make ten or twelve million dollars. Apparently the Administration meant to give that large sum to Mr. MORGAN when the World forced him to change his plan and announce a public loan. Now, the Administration hints that MORGAN will get the twelve million privilege in spite of all.

"There is something wrong in the Treasury Department. There was something wrong in the last secret loan. It is the duty of the Senate to reveal the truth. Investigate!"

THE LEDGER submits that if any Republican paper were to use such plain terms in regard to CLEVELAND's crookedness and CARLISLE's cussedness, the whole Democratic barnyard would set up a cackle.

It is pleasing to note, however, that the present Administration is getting too odorous for even some Democratic nostrils.

The will of H. Smith was yesterday admitted to record. He leaves all property to his wife during her life, then to their children. A. E. Cole, Allan D. Cole and William T. Cole are named as Executors without bond.

## DANGER SIGNALS.

### AND WHAT THEY MEAN.

#### No Fire Without a Little Smoke

When we are about to do a wrong thing, morally, our Conscience warns us against it.

If we see a man about to fall into a hole, get run over, walk deliberately off a precipice you either shout at him or try to pull him back.

When anything is going wrong in the body, it is always warned.

If it is our lungs, it is by pain and cough.

If it is our brain, it is by dullness and headache.

If it is our heart, it is by faint spells or palpitation.

If it is our nerves, it is by neuralgia.

Pain, cough, headache, palpitation and neuralgia are not diseases. They are simply symptoms or signs that something is wrong.

To stop these danger signals we must right the wrong that is causing them. We cannot do so by smothering them under plasters or deadening them with opiate.

Kidney disease has but few symptoms, but those symptoms are of the utmost importance and must not be neglected.

A little headache, a little dizziness, darkness and puffiness under the eyes, irregular action of the bowels, bad taste in the mouth, dryness of the skin, eruption and pimples on the skin, pale or yellow complexion, specks before the eyes, cold perspiration, pain in the legs, dimness of vision, point to either disease or incivility of the kidneys.

Name is signaling to You. There is DANGER ahead.

Under the care of Dr. Habb's Sprang-Kidney Pills every symptom of diseased kidneys disappears and the inflamed or overworked organs once more regain their health and strength.

Asparagus is Nature's own remedy for the kidneys, and it is a wonder worker.

For Fortifications and Coast Defenses.

WASHINGTON, D. C., Jan. 14.—The following resolution introduced by Senator Squire was agreed to by the Senate Monday: Resolved that the secretary of war be and is hereby directed to inform the senate what armament is required to defend the coast and to provide which are required for the erection of fortifications and coast defenses.

Harrison Will Not Be a Candidate.

NEW YORK, Jan. 14.—The Tribune Tuesday prints the following from Ex-Senator HARRISON: "I am a man of 65, who is now in the city, had a long conference with ex-President Harrison at the Fifth Avenue hotel Sunday. After seeing Gen. Harrison Mr. Palmer said: 'In my opinion Gen. Harrison will not be a candidate for the presidential nomination.'

A Strike Probable.

PITTSBURGH, Pa., Jan. 14.—The Edgar Thompson steel works at Bradock, did not resume Monday as anticipated. The 1,500 blast furnaces and 100 open hearths are to be closed off of ten per cent in wages, and unless the increase is conceded by noon Wednesday all hands will walk out.

## TERRIBLE DEED.

A Milk Dealer Destroys Himself, Wife and Children.

No Motive for the Tragedy Has Yet Been Ascertained.

The Crimes were Accomplished by "Tearing on Every Side the Heart of House—The Cracks of the Doors and Windows Were Plugged Up With Cotton."

CHICAGO, Jan. 14.—Police Officer Gibbons, of North Side, received a letter Monday morning from Peter Houghnard, of Englewood, informing him that by the time it was received the writer would be dead. Officer Gibbons at once contacted the police station at Englewood, and a officer was sent to Houghnard's house, where he found the dead bodies of Houghnard, his wife and five children, who had been asphyxiated by gas. Houghnard was a milk dealer and was believed to be in comfortable circumstances, motive for the crime has yet been ascertained.

The dead are Peter Houghnard, Mrs. Houghnard, their daughter, Stella Houghnard, and four sons. Houghnard, his wife, and two children were found in one room; in an adjoining room four were found lying of a 1-year-old girl, and in another room the corpses of the three remaining children. The jets of every gas fixture in the house had been turned on and the cracks of the windows and doors had been stopped with cotton. Death had evidently overtaken every member of the family except the father while they slept.

Friends of Houghnard say that in a telephone call a year ago he had several notes which had long since fallen due, but were never paid off; it is thought that this may have caused his insolvency.

### FIRE RAGES

At Seymour, Ind., with Heavy Loss—8 Scarcity of Water.

SEYMOUR, Ind., Jan. 14.—The most disastrous conflagration that has ever visited this city took place Saturday night at the home of Houghnard, which is occupied by the dry goods store of C. J. Atkinson & Co., and the clothing store of Shonfeld Bros. The exact cause of the fire is unknown, but in a few words it seems to have been under the control of the fire company, as the entire building and stocks were totally destroyed.

As soon as the flames began to gain control of the house, the fire department gave out. For 10 minutes no water was running through the hose and not until a man on horseback had been dispatched to the water station was pressure renewed. At 11 p. m. the firemen of the "Fighting First" national bank W. H. Wentz's shoe store, the Gold Mine clothing store, A. Strauss & Co., proprietors, and the clothing factories were all or less damaged. The losses can not be obtained, but it will probably reach \$60,000, with partial insurance. Among the losers are Mrs. A. M. Honch, \$10,000, on building; E. Gruber, \$10,000, on building; Johnson, \$8,000, on stocks; Shonfeld, \$15,000, on stocks; W. H. Wentz, \$5,000, on stock; J. T. Arbuckle, lawyer, \$500, on office; H. O. Montgomery, \$1,000, on office. Other losses can not be obtained.

**A Large New York Detonation.**

NEW YORK, Jan. 14.—New York will be represented before the democratic national committee at Washington next Tuesday, to present a large delegation than any other. The delegates will represent the hotels, the board of trade, the business men of the city, and Tammany Hall, the only delegation to be sent from the city. They will all work in harmony to secure the convention. They have a guarantee fund of more than \$50,000, which regarded as ample to pay all expenses. District Attorney John H. Fahey has been selected to make the principal argument for New York.

**Nomination to the Senate.**

WASHERSON, Jan. 11.—The following Monday sent the senate to the following nominations: J. A. Marshall, of Utah, to be United States district judge for the district of Utah; M. M. Brigham, of Utah, to be marshal of the United States for the district of Utah; First Assistant Engineer, H. F. Foote, of New York, to be chief engineer in the revenue cutters service also a number of minor army promotions.

**Conversation with the Allian Frères.**

WASHINGTON, Jan. 14.—Mr. Morse (Rep., Pa.) Monday introduced a bill in the house instructing the committee on foreign affairs to take up the expatriation of according to the terms of an expression of this government in regard to the Armenian outrages and looking to the co-operation of the allied powers to "wipe the Turkish government off the earth." It was referred to the committee on foreign affairs. The day was given over to business pertaining to the Diet of Columbia.

**Ship Canal Bill introduced.**

WASHINGTON, Jan. 14.—Mr. Dalzell (Rep., Pa.) Monday introduced a bill in the house inciting the Lake Erie and Ohio River Ship Canal with power to connect Lake Erie and the Ohio river by canal. The proposed waterway is to be at the point near Toledo and ending at Wauseon, Ohio. The bill names Andrew Carnegie and some 30 others as incorporators.

**Indicted on a Singular Charge.**

DULUTH, Minn., Jan. 14.—Mr. Wm. Craig, of the Memphis and Cincinnati Packet Co., Capt. Charles Church, sunk Sunday night at Cartersville, Mo., 130 miles north of Memphis. No lives lost. No further details have yet been received.

**More Peaceful.**

LONDON, Jan. 14.—Count Von Matfeld, German ambassador to Great Britain, has gone to Brighton, and his departure from London is taken as a sign that the Anglo-German situation is becoming more peaceful.

**President Kruger a Pennsylvaniaian.**

WILKESBIAKE, Pa., Jan. 14.—A local paper prints a story to the effect that President Kruger of the South African republic is a Pennsylvaniaian. It is said that he was born in March Chunk, and went to South Africa 50 years ago. Through his energy and military spirit he at once became a leader among the Boers.

### THE CUBANS.

Every Hour's Delay in Recognizing Them as Rebels is Dangerous, Says Don Dickinson.

CHICAGO, Jan. 14.—A Washington special says:

"Every hour's delay in the recognition of Cuban rebellion is dangerous," said Don M. Dickinson, ex-postmaster general Monday. She is entitled to it by the only recognized definition of 'international law,' that of Cuban giving some evidence before recognition of Cuban independence. 'If England does not recognize the Greeks as beligerents, said Canning, 'England must treat the Greeks who kill all bandits and murders as bandits and murderers.'"

This is our relative position toward Cuba," today," continued Mr. Dickinson. "Recognized as beligerents, the Cubans could trade with us and buy munitions of war on an equal footing with us. We could not recognize the confederacy before gun was fired, and directed the Cuban officers to admit the confederate flag at ports. The other nations of the world are awaiting America's action, and in regard to this matter is an outcome."

Mr. Dickinson was in conference with Senator Burrows, Speaker Crist and others Monday morning in regard to the matter in which he is so warmly interested.

**LORD SALISBURY**

Urged by London News to submit the Venezuelan Question to Arbitration.

LONDON, Jan. 14.—The New Year morning reiterated the importance of finding an honorable settlement of the Venezuelan dispute. Says: "There are allowed to come to an understanding as they are now there may be, no matter how many execellent people may be horrified at the idea Lord Salisbury has evidently declined arbitration. In this opinion, no the principle of reversion, we believe that Venezuela failed to agree. He and Venezuela failed to agree. We believe that Lord Salisbury has agreed that Venezuela is in the wrong, but that she is right in her contention. The stronger the British side, the more eager should Lord Salisbury be to submit it to a competent court. Surely we are willing to make a settlement of the dispute in a way that will restore the friendship of the United States. We expect something more from Salisbury than an argumentative theory on paper.

### PAWNEE INDIANS

Leave Their Farms and Go to Ghost Dancing—Crazy Horse's Rule Troubles Indians.

PENNSYLVANIA, Jan. 14.—Pawnee Bill, who has returned from the four bands of the Pawnee tribe, brings word that the Indians have all left their farms and moved into teepees Black Bear camp, and making no money, are very hungry. They have had to make medicine that was bullet proof but when tried as an experiment on his brother in front of a number of chiefs, the bullet penetrated his body, causing instant death. All of "Crazy Horse's" cattle and ponies were taken from him as a penalty by the chiefs, and there is talk of the federal officers inducing him on the charge of murder.

**Favers Standing Arbitration.**

LONDON, Jan. 14.—The Chronicle Tuesday published an interview with Sir Frederick Pollock, corpus professor of Oxford, on arbitration, in which he says that he is in favor of standing arbitration between the United States and Great Britain. It would be far preferable, he adds, to have a special arrangement every time, but that would be inconvenient in deciding the issues to be settled. Nevertheless he believes it can and ought to be managed with good will on both sides.
